

Line Symmetry – Introduction

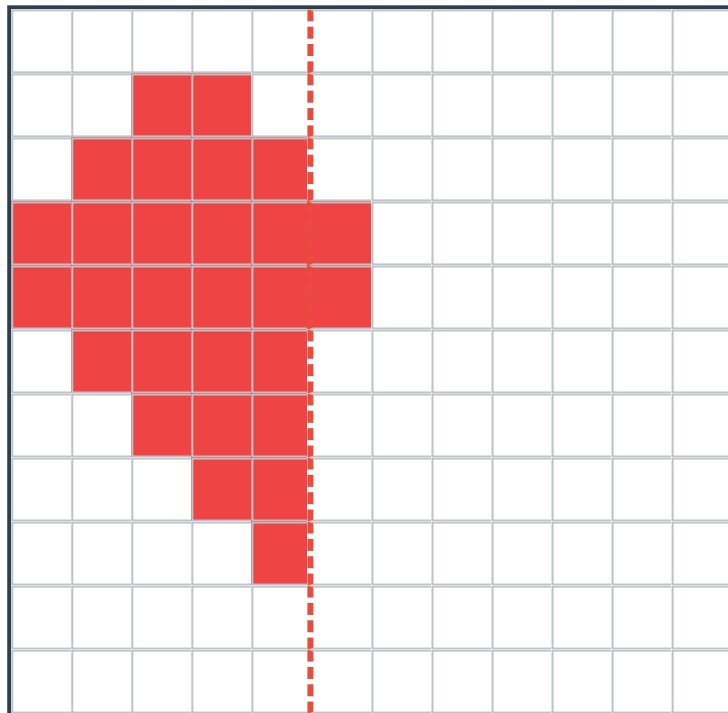

Grades 1–2 & Special Needs | Reflections with Large Grids

Name: _____ Date: _____

Task: The left half is given. Draw or place the right half symmetrically! The red dashed line is your mirror line.

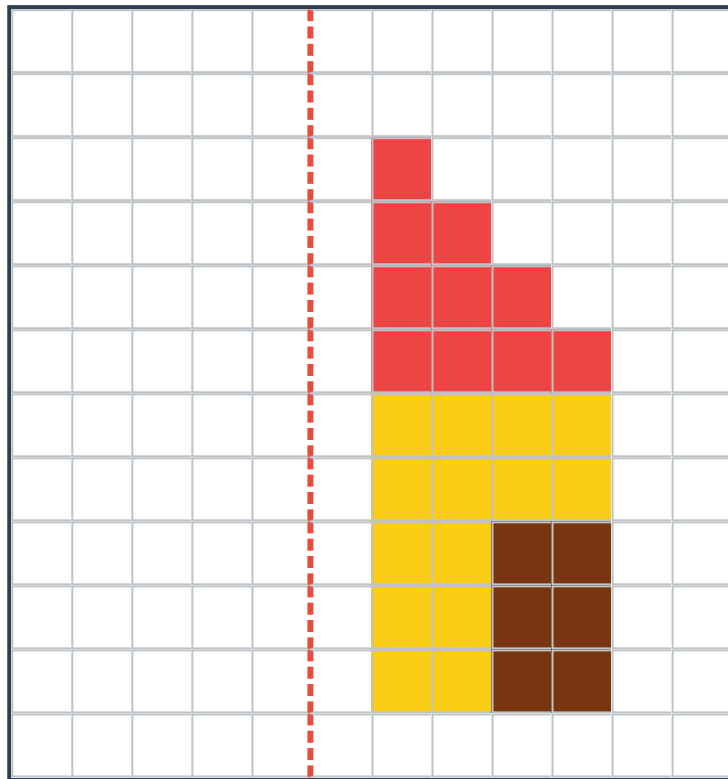

Exercise 1: Simple Heart (Vertical)

Tip: Color or use red beads

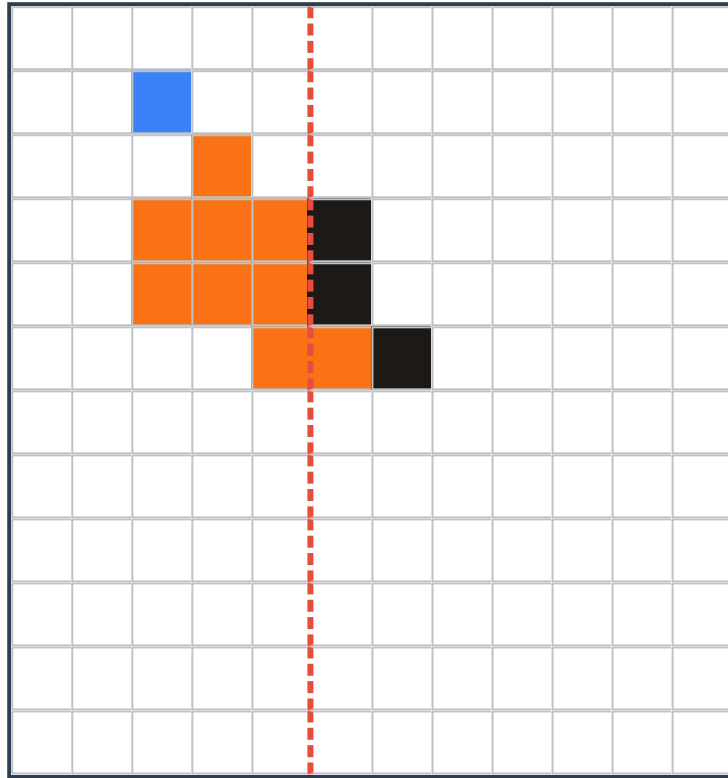

Exercise 2: House (Vertical) - With Colors

Red = Roof, Yellow = Wall, Brown = Door

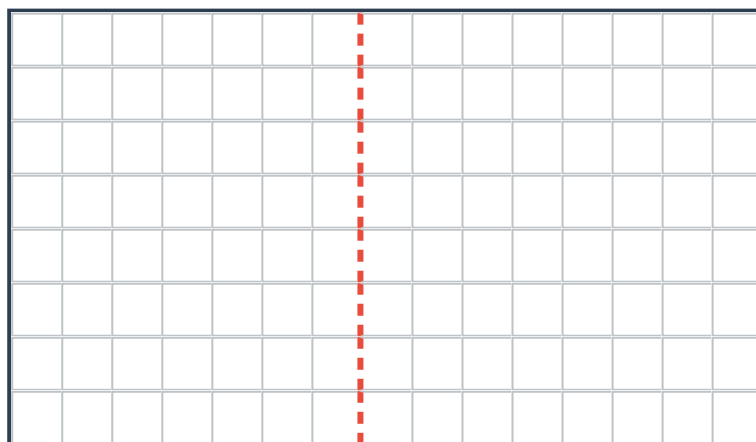

Exercise 3: Butterfly – Horizontal & Vertical

Note: This pattern has **two** mirror lines (one from left to right, one from top to bottom). Find both!

Exercise 4: Create your own!

Think of a simple pattern. Draw or place it on the **left half** (before the line). Give the sheet to your classmate – they will mirror it!

 **Check with the mirror!**

Place a flat mirror upright on the red line. Does the pattern look the same in the mirror as without? Then it is correct!
